Shubham Farera

Senior Software Engineer (SDE-3) • Distributed Systems & Backend Architect • Java, Spring Boot & Kafka Specialist

Pune, India, 411021 +91 9584368070 shubham.farera@gmail.com LinkedIn GitHub

EXECUTIVE PROFESSIONAL SUMMARY

Senior Software Engineer with **8.5+ years of experience** architecting high-throughput, fault-tolerant distributed systems and enterprise microservices. Specialist in event-driven architectures with **Apache Kafka (10M+ daily events)**, distributed transaction workflows via **Saga (Orchestration & Choreography) & Outbox patterns**, low-latency search with **Elasticsearch (<150ms p99 latency)**, and database scaling via MySQL/Oracle read replication & multi-tier Redis caching across Healthcare, FinTech, and Logistics.

TECHNICAL COMPETENCIES & ARCHITECTURE

- **</> Languages & Core :** **Java (8 / 11 / 17)**, Data Structures & Algorithms (DSA), Object-Oriented Analysis & Design (OOAD), Multithreading & Concurrency.
- **Distributed Systems :** **Apache Kafka**, Saga Pattern (Orchestration & Choreography), Transactional Outbox, **Elasticsearch**, Redis Caching, Consistent Hashing, CAP & PACELC Theorems.
- **Architecture & LLD :** **Microservices Architecture**, High-Level Design (HLD), Low-Level Design (LLD), **SOLID Principles**, GoF Design Patterns (Strategy, Factory, Observer, State), Clean Architecture.
- **Frameworks & DB :** **Spring Boot**, Spring Cloud, Hibernate / JPA, RESTful APIs, **MySQL**, **Oracle**, PostgreSQL, Database Sharding & Master-Slave Replication.
- **Cloud & DevOps :** **Microsoft Azure (AZ-900 Certified)**, Docker, CI/CD (Jenkins), CodeQL Static Analysis, SonarQube Quality Gates, Git, JUnit, Mockito, Agile / Scrum.

PROFESSIONAL EXPERIENCE

IT Analyst (Senior Backend Engineer) @ Tata Consultancy Services
Oct 2023 – Present

- Architected event-driven microservices using **Java 17, Spring Boot, and Apache Kafka**, processing **10M+ daily events** for healthcare claims workflows with 99.99% availability.
- Implemented distributed transactions across billing & policy underwriting services using the **Saga Pattern & Outbox Pattern**, guaranteeing eventual consistency without 2PC overhead.
- Engineered search retrieval pipelines using **Elasticsearch** with custom analyzer mappings, reducing p99 latency by **65% (from 450ms to <150ms)**.
- Scaled database architecture with MySQL/Oracle **Master-Slave read replication** and multi-tier **Redis caching**, reducing database read contention by **55%**.
- Refactored legacy monolith into extensible microservices applying **SOLID principles** and GoF patterns; increased JUnit/Mockito test coverage from 45% to **88%**.

Application Development Senior Analyst @ Accenture
Sept 2021 – Aug 2023

- **Singapore Wealth & Asset Management:** Architected backend microservices for automated portfolio rebalancing workflows, executing real-time allocation calculations for **$500M+ in AUM**.
- Engineered idempotent RESTful APIs with financial settlement networks, reducing API failure rates by **40%**; optimized SQL queries and Hibernate ORM, improving batch settlement by **35%**.

Software Engineer Progression (Analyst & Associate) @ Accenture
Feb 2018 – Aug 2021

- **Australia Logistics Platform:** Developed order tracking REST APIs (Java, Spring Boot, JPA) handling **200K+ daily orders**; applied State/Strategy patterns reducing latency by **30%**.
- **US Healthcare System:** Developed core Java batch transformation utilities; authored JUnit/Mockito test suites achieving **85%+ code coverage** within Agile sprints.

KEY DISTRIBUTED PLATFORMS

Claims Event Platform: Kafka + Saga microservices handling 10M+ daily events (99.99% uptime).

Elasticsearch Query Engine: Member search with custom typeahead DSL (<150ms p99 latency).

Asset Rebalancing Engine: Real-time portfolio calculation pipeline managing $500M+ AUM idempotently.

Logistics Order Engine: Real-time event pipeline handling 200K+ daily shipments with zero race conditions.

EDUCATION & HONORS

B.E. – Information Technology
SGSITS Indore (2013–2017) | **CGPA: 7.1**

Higher Secondary (Class XII, CBSE): 87.0%

Azure Certified (AZ-900) | Cloud Architecture

Distinctions: National Table Tennis (BITS Pilani Goa); Captain CBSE Football; NSO AIR 370.
